**MECURE** Industries Plc says supportive government policies, strong focus on strategic positioning and improved operational efficiency has delivered a remarkable 52 percent revenue growth for the company, in the first quarter of 2026, underscoring the impact of disciplined execution and forward-thinking leadership. Management attributed the performance to streamlined processes, smarter resource allocation, and a clear market-driven strategy that continues to strengthen its competitive edge.

Navigating through a challenging but gradually - stabilizing macroeconomic environment, the company recorded revenue of ₦20.15 billion, representing a 52% year-on-year growth, alongside Profit Before Tax (PBT) of ₦1.92 billion, up 136% year-on-year, and Earnings Per Share (EPS) of ₦0.34, reflecting a 143% year-on-year increase.

Recall that the Nigerian economy from early 2026 has continued to adjust to the effects of structural reforms implemented over the past years including foreign exchange liberalization and tight monetary policy aimed at curbing inflation. While inflation remains high, it has shown signs of gradual moderation, and exchange rate volatility, though still present, has become relatively more predictable.

These developments, alongside improving global supply chain conditions and easing energy price pressures, have contributed to a cautiously improving operating environment for manufacturers.

Within this context, MeCure's Q1 performance reflects the strength of its strategic positioning. The Company confirmed it
